# ACCESS + VISTA INTEGRATION

## VISTA 128FBP/ 250FBP FEATURES

**Honeywell**

Access + VISTA integration is Honeywell's most comprehensive access control platform. Combining an easy-to-use access control system with video and intrusion into a single interface, Access + VISTA integration offers a complete security management solution including access control, alarm monitoring, video badging and CCTV system. Access + VISTA integration is the next generation of the Pro-Watch and WIN-PAK platforms. It provides a three-in-one solution that offers end users substantial enhancements to existing systems or significantly improves the operation of new security systems by reducing training and labour.

## VISTA-128FBP

### Combination Fire/Burglary Control Panel

### Features

- **Capacity:**
- Zones: 8-128
- Users: 128
- Event Log: 512
- Partitions: 8
- **Two Expansion Methods:**
- V-Plex polling loop (two-wire)
- UL Commercial Wireless
- **User Interfaces:**
- 6160CR Custom Alpha Display (Fire) / 6271CV Touch Screen
- **All VISTA-128FBP features plus:**
- UL Commercial Fire Wireless
- (2) Two-wire smoke loops on board with optional expansion
- PID smoke detector compatible
- On-board reset for four-wire smoke
- Two on-board notification appliance circuits (NAC)
- Automatic smoke detector sensitivity maintenance testing

## VISTA-250FBP

### Combination Fire/Burglary Control Panel

### Features

- **Capacity:**
- Zones: 8-250
- Event Log: 1000
- Users: 250
- Partitions: 8
- **Two Expansion Methods:**
- V-Plex Polling Loop (two-wire)
- UL Commercial Wireless
- **User Interfaces:**
- 6160CR Custom Alpha Display (Fire) / 6271CV Touch Screen
- **All Vista-250FBP features plus:**
- UL Commercial Fire Wireless
- (2) Two-wire smoke loops on board with optional expansion
- PID smoke detector compatible
- On-board reset for four-wire smoke
- Two on-board notification appliance circuits (NAC)
- Automatic smoke detector sensitivity maintenance testing

**ALSO AVAILABLE:**
V128FBP-24, 24V version / V250FBP-24, 24V version

**Compatible devices:**
- 5800CO Wireless Carbon Monoxide detector (coming soon)
- 4204CF Commercial Fire Relay
- 4208SNF Eight-Zone Expander (Class A or B)
- 5192SD and 5192SDT V-Plex Polling Loop Smoke Detectors

Integration
Access · Video · Intrusion

# VISTA SERIES

The Vista family is a series of totally compatible control panels designed to support the easiest to use end-user interfaces available. Vista offers more flexibility & simpler programming along with features that customers want. As the world's largest manufacturer of electronic security products, Honeywell builds proven performance into everything we make. Combine this with the 5800 Series wireless transmitters, and you now have the most flexible, reliable and cost effective solutions for security and home/business control.

A blend of head turning style and sophisticated technology, the state of the art touchscreen keypad makes security system operation easier then ever – with graphics and simple prompts guiding you every step of the way. By just touching the graphics on the intuitive, easy to read touchscreen display, you can conduct a variety of everyday tasks with unprecedented ease.

Our products do more than keep you safe...they can improve household communication, make your home more comfortable and provide a level of simplicity and convenience you'll really appreciate. Best of all, they can enhance the quality of life.

With solid features and robust system capacities, you'll find Vista panels to be the ideal choice for all your installations.
